

Derma Institute is an award-winning training academy that strives for excellence in training on non-surgical, non-invasive facial treatments, such as BOTOX® and Dermal Filler. As a worldwide institute, we provide our delegates with the highest standards of qualification in aesthetics medicine. Derma Institute is distinguished from the other companies by offering the support and information our delegates needed to start their aesthetic career even after completing the training.

Derma Institute offers courses ranging from the beginner foundation course, advanced aesthetics training and professional masterclasses to the most prestigious qualification, the accredited LEVEL 7 Diploma. As a leader in aesthetic training, we guarantee our delegates a solid base of fundamental cosmetic dermatology knowledge, as well as a robust portfolio of hands-on experience with injectables. Derma Institute has strategically designed the courses to cover both the theoretical and practical sides of facial injectables, with 1:1 live patient practical and guidance by leading doctors in the industry. All the courses are focus primarily on patient safety and meet the strict HEE and GMC criteria, adhering to the latest guidelines for aesthetic medicine.

### **Combined Foundation & Advanced BOTOX® and Dermal Filler Training Course**

The Combined Foundation & Advanced BOTOX® and Dermal Filler Training Course is our most popular and awarding-winning course for beginners and intermediates practitioners who are looking to reach the experienced level through the mastery of BOTOX® and Dermal Filler techniques. This CPD accredited 2-day Combined BOTOX® and Dermal Filler training covers the 22 most popular aesthetic procedures.

The Combined BOTOX® and Dermal Fillers Training Course aims to accelerate learning and provide a fast-track into aesthetic medicine for those with an existing and licensed medical knowledge base. Over these 2 days, Derma Institute provides you with comprehensive knowledge and extensive practical skills from injecting mannequins and on LIVE MODELS,

### **Level 7 Diploma**

The Ofqual registered Level 7 Diploma is for Medics who would like to go the extra mile to become the best in their field. A comprehensive training programme dedicated to ensuring the highest level of training in Aesthetics, from the expert procedure of Injectables, to the in-depth learning of Anatomy, Pathophysiology and Dermatology. The delegates will not only learn how to administer these procedures but how to deal with assessments and consultation to an excellent degree. Working to the highest level of health and safety and aesthetic welfare and aftercare.

Derma Institute offers highly skilled professionals working in the medical field the opportunity to expand their skills and learn from some of the world's most experienced trainers. Our training team is carefully hand selected for extensive knowledge in cosmetic procedures, each have more than 10 years experience and run successful clinics themselves. They will be sharing this wealth of expertise and knowledge so that our delegates will be confident enough to inject safely and effectively. Our expert trainers offer direct support with the opportunity to discuss cases and post-course mentoring. Derma Institute team also provide you with all the marketing and business setup advice and assistance in creating and building a strong portfolio.

The Derma Institute Courses are specially created to boost earning potential, create opportunities for greater independence, facilitate the building, development, and nurturing of skills, and allow for improved career stability. Under our expert assured guidance, our delegates learn how to perform Injectables to a professional standard, opening up new career pathways and helping them to develop an exciting career in aesthetics or start their own business.
